

TOWN SHORES OF GULFPORT
212 THE DIPLOMAT CONDOMINIUM ASSOCIATION

ACR ADDENDUM FOR
FRONT AND REAR DOOR REPLACEMENT

The only approved style of replacement door is a six-panel, hurricane-rated door as pictured below. These doors are available for purchase from most reputable dealers and installers.

When installing your new door, it must include a threshold for the storm door to close on. No storm door sweep can touch the walkway surface. Grinding or alteration of the walkway surface is prohibited. **Be sure to inform your installer of these requirements as additional work may be required.** Should your installer need clarification or additional information have them contact a building committee member.

Failure to meet these requirements may result in the forfeiture of your deposit and/or re-installation of the door.

By signing below, you acknowledge these requirements and agree to follow them.
